DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: Claims 1-6 and 10-26 are cancelled. Claims 1-6 and 10-26 were non-elected claims from the election restriction requirement filed on 3/27/02, which the election restriction requirement was not traversed by the Applicant's response filed on 5/07/03.

2. Claims 7-9 and 27-28 are allowed.

The following is an examiner's statement of reasons for allowance:

3. The prior art teaches a metal lined hole through a semiconductor substrate where the metal lined hole is conductively connected to a spiral shaped metal layer formed on the substrate, a dielectric film layer formed thereon the spiral shaped metal layer, and another spiral shaped metal layer formed thereon the dielectric film layer. The prior art does not teach the above teachings in combination with the two spiral metal layers not being electrically connected together near the electrical connection between the first spiral metal layer and the conductive metal lined via in the semiconductor substrate. This combination is found to be non-obvious thus novel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
